

The Ultimate Hydrogen Supplement!

Hydrogen Balance®

“Hydrogen Balance” is our extra-strength product, which is believed to have double the antioxidant powers, compared with the regular strength product “Active Hydride Plasma”.

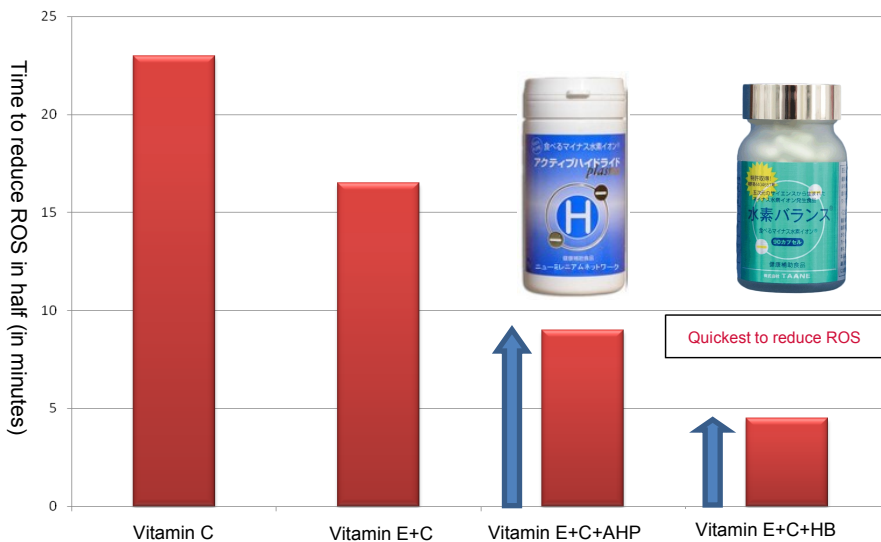

It reduces oxidation in your body (ROS-Reactive Oxygen Series) more quickly.

Hydrogen Balance is suggested for those suffering from a progressive disease and requires antioxidation.

(Recommended 3 capsules per day, with each meal.)

The main ingredient of our Hydrogen supplements is Coral Calcium, which releases Minus Hydrogen Ion, also referred to as “**Minus Hydrogen Ion power**”. In addition, Hydrogen Balance also contains a well balanced amount of Magnesium-Oxide derived through the same redox process as the Coral Calcium.

On the left: Rat experiment has shown that Hydrogen Balance (HB) requires **only half the time**, compared with Active Hydride Plasma (AHP), to reduce ROS (Reactive Oxygen Species).

In this graph, the shorter the bar, the higher the antioxidant powers.

Hydrogen Balance contains a well balanced combination of Coral Calcium and Magnesium-Oxide, which are both hydrogenated.

Through diligent research by Dr. Oikawa, the ideal ratio of these ingredients has been determined, to produce Hydrogen Balance using a patented redox process.
